

SKU: HDMI2.1-3M Marca: EPCOM POWERLINE Categoría: VGA / DVI / HDMI

Precios con IVA incluido

DESCRIPCIÓN

domésticos exigentes. Soporta resolución 8K a 60Hz y 4K a 120Hz con una velocidad de transferencia de 48 Gbps, duplicando el ancho de banda de la versión anterior 2.0. Incorpora metadatos dinámicos para contenido HDR desde fuentes externas, garantizando la máxima fidelidad de imagen. La tecnología eARC permite la transmisión de audio sin compresión, incluyendo formatos avanzados como Dolby Atmos. Incluye optimizaciones específicas para gaming como ALLM, VRR, QFT y QMS que reducen la latencia y mejoran la fluidez en escenarios de alta exigencia.

Características principales

- Resolución 8K a 60Hz y 4K a 120Hz
- Velocidad de transferencia de 48 Gbps
- Compatibilidad con eARC para audio Dolby Atmos
- Modo automático de baja latencia (ALLM)
- Tasa de refresco variable (VRR) para videojuegos
- Quick Frame Transport (QFT) para menor tiempo de transporte de señal
- Quick Media Switching (QMS) para cambios rápidos entre frecuencias

Metadatos dinámicos HDR desde fuentes externas

Conectores chapados en oro de 24K

ESPECIFICACIONES

Característica 1	Resolución 8K a 60Hz y 4K a 120Hz para máxima definición
Característica 2	Transferencia de datos ultrarrápida de 48 Gbps
Característica 3	Audio eARC con soporte nativo para Dolby Atmos
Característica 4	Modo automático de baja latencia ALLM ideal para gaming
Característica 5	Tasa de refresco variable VRR sin tearing ni stuttering
Característica 6	Conectores chapados en oro de 24K para conexión estable
