

CHS-6 Chassis

Product Installation Document

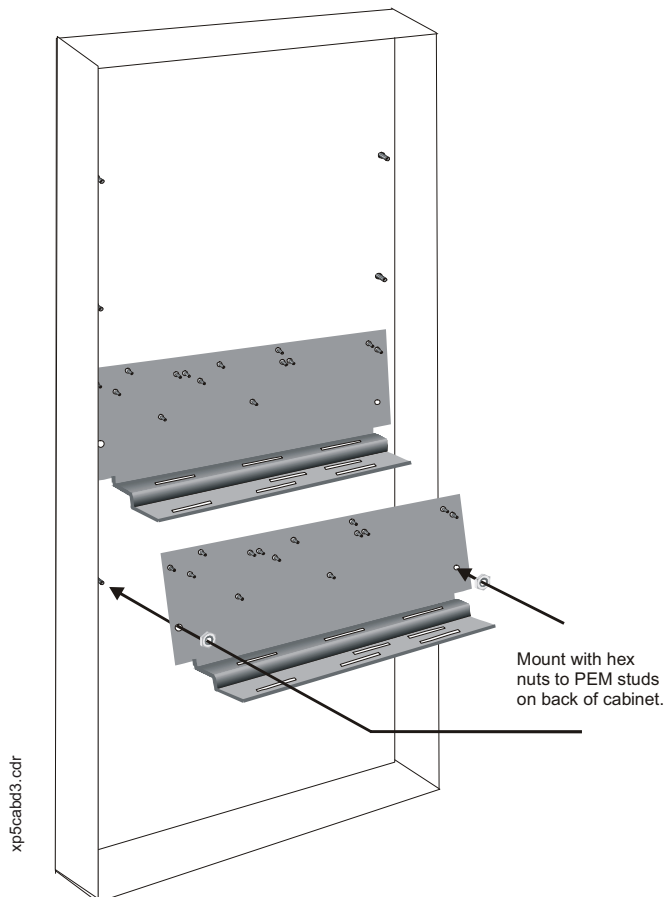

PN 50896:B1 05/26/2005 05-355

Installation in a BB-25 Cabinet

The CHS-6 chassis is mounted with two self-threading screws (P/N 38120) provided with the backbox or with two hex nuts (P/N 36047) provided with the chassis.

The CHS-6 chassis fits into the BB-25 cabinet and the CAB-3/CAB-4 Series cabinets, A-size through D-size. The chassis can fit into any of the CAB-3/CAB-4 series cabinet rows except for the bottom row, which was designed for battery housing and does not have PEM studs for mounting.

**Installation in a CAB-3/CAB-4 Series Cabinet
(a CAB-D3/CAB-D4 is shown here)**
