ESPECIFICACIONES

|                  |                                                                                    |
|------------------|------------------------------------------------------------------------------------|
| Característica 1 | Wi-Fi 7 con velocidad agregada de hasta 4.3 Gbps para alta demanda de datos        |
| Característica 2 | Cobertura de hasta 160 m² (1750 pies²) con 5 transmisiones espaciales MU-MIMO      |
| Característica 3 | Soporte para hasta 300 dispositivos concurrentes en entornos de alta densidad      |
| Característica 4 | Uplink 2.5 GbE para eliminar cuellos de botella en backhaul                        |
| Característica 5 | Antenas integradas de 6 dBi para distribución uniforme de señal en techo           |
| Característica 6 | Alimentación PoE para instalación con un solo cable sin tomacorrientes adicionales |
